1	IEEE Report Template	1
2	Presentation	2

1 IEEE Report Template

- Abstract
 - 150-200 words, first 2 lines(about application and its uses)
 - Next 2 lines (what models you are experimenting with)
 - Dataset sourced from
 - Best results reported
 - Enhancements from baseline(find papers reporting on the same dataset, and you compare your results to these papers)
- Introduction
 - 1-1.5 pages long
 - Every paragraph contains some references.
 - Paragraph 1 - Broad domain - Explain higher level concepts pertaining to your application
 - Paragraph 2 - Application
 - Paragraph 3 - Techniques Experimented
 - Paragraph 4 - Proposed Model
 - Paragraph 5 - Section Overview
 - Paragraph 6 - Contributions as bullet points
- Related Works
 - Write out what has been done as part of your survey.
 - Introduce the motivation for the related works being done.
 - Find 10 papers related to your application
 - * Model design
 - * Dataset sourced from
 - * Experimented models
 - * Challenges and limitations

* Results reported

- Dataset Description
- Proposed Methodology
- Results And Analysis
- Conclusion
- Future Work
- Citations
 - Overall 22-25
 - Include papers from the last 2 years.
 - Literature survey directly connected to your application - 8-10
 - 4-6 Amrita Citations

2 Presentation

- Title Slide
 - Project Title
 - Subject Code And Name
 - Group Members - Name And Registration Number
 - Mentor
- Introduction(Optional)
- Motivation
- Problem Statement
- Literature Survey - 2 Slides

Template for Literature Survey

Year	Title	Dataset/Domain	Methods	Results	Challenges
note- Sometimes some datasets are streamed dataset					

- Proposed Methodology - 5-8 Slides
 - Ideally an architecture diagram. relevant tool
- Results And Analysis - 3-5 Slides
- Conclusion And Future Work - 1 Slides
- References - 1 Slides
